SUMMARY

Full stack developer and AI enthusiast with proven experience delivering scalable web, backend, and AI powered applications. Adept at leading teams, architecting robust systems, and integrating LLM driven features for real world impact. Currently pursuing a B.E. in Computer Engineering and a Diploma in Programming from IIT Madras. Eager to contribute technical expertise to challenging, high impact projects.

EDUCATION

- **Thapar Institute of Engineering Technology** *Bachelor of Engineering in Computer Engineering* | Aug 2023 – Present
CGPA: 9.38
- **Indian Institute of Technology Madras** *Diploma in Programming* | Sept 2023 – Present
CGPA: 8.34
- **Saiyyid Hamid Senior Secondary School** *Secondary Education* | July 2022
Grade: 93%

PROFESSIONAL EXPERIENCE

- **Team Lead/ Full Stack Engineer — Thapar Edutube** *Patiala, India*
Next.js, Express, Node.js, PostgreSQL FTS, Redis, Docker | *Thapar University* Oct 2024 – Present
 - Led a team of 3 developers to build *Thapar Edutube*, an exclusive lecture archive for 10000+ university students.
 - Currently leading storage and hosting setup, coordinating with faculty to record and upload lectures.
 - Designing teacher dashboards for managing course flow, uploading resources, and customizing lesson sequencing.
 - Developed auxiliary tools, including a slot booking app for reserving lecture recording times and an admin dashboard for customizing course, chapter and lecture structures.
- **Backend Engineer — Datesheet Generator** *Patiala, India*
Flask, MySQL, Jinja2, Python | *Thapar University* Mar 2025 – Present
 - Re-architected the datesheet generator project from Flask sessions to a MySQL backed system.
 - Implemented secure login, multi user support, and savepoint functionality to allow partial work resumption.
 - Enhanced datesheet creation workflow for improved usability and reduced scheduling errors by 40%.
 - Currently integrating with the university's PeopleSoft Oracle database to automatically fetch student, course, and faculty details and push finalized datesheets directly.

PROJECTS

- **SkillMap — Personalized Learning Engine** *Patiala, India*
Next.js, Express, Qdrant, GPT-4, GitHub Actions [🔗]
 - Built an AI engine generating personalized learning paths using GPT-4 and embedded skill taxonomies.
 - Implemented semantic search in Qdrant for fast retrieval and effective peer skill matching across users.
 - Added leetcode tracking and automated learning recommendations to support continuous skill development.
- **Intellidine — Microservices based Restaurant Order Management System** *Patiala, India*
Next.js (frontend), Nest.js (backend), Typescript, Docker, GitHub Actions, Jest [🔗]
 - Designed a microservice system for orders, menus, inventory and notifications with modular deployments.
 - Designed workflows to support reliable updates and prevent duplicate operations.
 - Streamlined data schemas and service boundaries to simplify maintenance and support independent scaling.
- **Portana — AI Powered Interactive Portfolio** *Patiala, India*
Next.js, Fastify, Typescript, Qdrant, GPT-4o, Docker, GitHub Actions, n8n, Umami analytics [🔗]
 - Developed an AI driven portfolio with conversational features and dynamic project insights.
 - Built modular API routes for real time content rendering and smoother user interactions.
 - Added n8n based auto sync workflows for GitHub/LinkedIn to keep content continuously updated.
- **IITM Project — Vehicle Parking App** *Patiala, India*
Flask, Vue.js, SQLite, Redis, Celery [🔗]
 - Built a real time parking system with JWT auth, role based workflows, and coordinated user dashboards.
 - Added Redis caching and Celery scheduling to reduce repeated DB queries and improve responsiveness.
 - Implemented live occupancy tracking, automated availability alerts, and scheduled reporting features.

ACHIEVEMENTS

- **Innovation Award — Agentic AI Hackathon 2025** Organized by Ulster University (UK)

SKILLS

- **Programming Languages:** Python, Java, C++, C
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Next.js, Vue.js, Node.js, Express.js, GraphQL, Flask, Jinja2
- **AI & LLM Tools:** LangChain, OpenAI Chat Completions, OpenAI Assistants API, RAG, Prompt Engineering
- **Search & Vector Systems:** OpenAI Embeddings, PostgreSQL FTS, Qdrant, Elasticsearch
- **Database Systems & ORMs:** PostgreSQL, MySQL, SQLite, Redis, SQLAlchemy, Prisma
- **Cloud Technologies:** AWS (EC2), Heroku, Vercel, Cloudflare Tunnels
- **DevOps & Version Control:** Docker, Docker Compose, Nginx, Git, GitHub, Github Actions, CI/CD pipelines
- **Testing Frameworks:** Jest, Postman
- **UI & Styling:** Bootstrap, MUI, Tailwind CSS
- **Other Tools & Technologies:** Linux System Administration, REST APIs
